D	HOSPITAL FINANCING	D1	Hospital financers	Since 1997, the territorial health funds conclude contracts with healthcare service providers in their respective area. They fund the provided services and the reimbursements for drugs, and they guarantee the quality of services provided. Since 1999, there are ceilings for the volume of services stipulated in the contracts.		<a href="#">see def.</a>
		D2	Modes of payment	Payments are based on costs calculated on the basis of 50 DRG. The territorial health funds finance hospitals prospectively at the beginning of each year.		<a href="#">see def.</a>
		D3	Use of DRGs			<a href="#">see def.</a>
		D4	Hospital investments	The municipalities are responsible for the maintenance and development of their own infrastructure. They decide about investments in their territory. But given their financial difficulties, the modernisation of hospitals and their equipment has become again, in 1998, an objective of the national investment policy.		<a href="#">see def.</a>
